

We are stepping up our game
in fund transfer services
for greater customer convenience!

Introducing **PESONet!**

FAQs

- What is the purpose of PESONet?

Through PESONet, businesses, government, and individuals will be able to conveniently pay or transfer funds from their account to one or multiple recipient accounts in other financial institutions. PESONet is the perfect alternative to the still widely used paper-based check system.

- Who are the participating financial institutions?

There are more than forty (40) participating financial institutions (PFIs) in PESONet. For a complete list of PESONet PFIs, please visit <https://www.pesonet.info/>

PESONet is a new electronic funds transfer service that enables customers of participating banks like DBP, e-money issuers or mobile money operators to transfer funds in Philippine Peso currency to another customer of other participating banks, e-money issuers, or mobile money operators in the Philippines.

- Are there any fund transfer fees?

Financial institutions may charge fees to the payers for funds transfer transactions. However, payees will receive the funds transferred in full and shall not be charged for electronic crediting to their accounts. Moreover, for greater transparency, all participating financial institutions are required to disclose to BSP the details of all fees that will be charged to their clients. A bulletin board of fees will then be posted at the BSP website.
