

We are stepping up our game
in fund transfer services
for greater customer convenience!

Introducing **PESONet**!

PESONet is a new electronic funds transfer service that enables customers of participating banks like DBP, e-money issuers or mobile money operators to transfer funds in Philippine Peso currency to another customer of other participating banks, e-money issuers or mobile money operators in the Philippines.

PESONet is the most convenient, affordable, reliable, and secure electronic funds transfer service that government and businesses can use to pay each other and individual persons (e.g. government-to-government, government-to-business, government-to-person, business-to-government, business-to-business, and business-to-person). It is also the most practical way for persons to pay, send, or remit money to other persons especially for non-urgent transactions.

PESONet
SIGURADO KA

**PESONet is the best payment method for bulk disbursements or payments.
It is the perfect alternative to checks!**
